

# InterSafe

## Consultant Profile

### Scott Boyd

Scott has been with InterSafe since 2010.

#### Professional Qualifications:

- 2003 Bachelor of Engineering (Mechanical) (Hons), University of Newcastle.

#### Professional Memberships:

- Member of the Institution of Engineers Australia (MIEAust)

#### Professional Development:

- 2010 Basic Incident Investigation using the Essential Factors methodology (InterSafe)
- 2010 Advanced Incident Investigation using the Accident Reference Tree Trunk methodology (InterSafe)
- 2010 Energy Concepts - An Understanding of How People are Permanently Damaged (InterSafe)
- 2005 Methods of Bulk Solids Conveying
- 2005 Queensland Blue Card
- 2005 Safe Work at Heights training

Scott was initially employed by a major engineering company as a project engineer, starting in 2004. Scott's experience covers multiple industries including coal handling, aluminium finishing and the steel industry across the Eastern and Southeastern coast of Australia. Projects which Scott was involved in include the return-to-service of a decommissioned stacker-reclaimer at a coal terminal, the installation of a new aluminium pre-heat furnace at an aluminium rolling mill, and repairing a damaged steel pickling line after a catastrophic fire. Scott has substantial experience both on-site and in the design office.

Since starting with InterSafe Scott has been primarily investigating accidents and preparing reports for the legal profession and performing slip-resistance measurements on a consulting basis.
