

# InterSafe

## Consultant Profile

### Phillip Byard

Phillip has been a member of the InterSafe Team since mid 2002.

#### **Professional Qualifications:**

- 1988 Bachelor of Mechanical and Electrical Engineering (B.E. Mech/Elec)
- 2005 Certificate IV in Assessment & Workplace Training

#### **Professional Memberships:**

- Member of the Institution of Engineers Australia (MIEAust)
- Affiliate Member of Ergonomics Society of Australia
- Associate Member of Construction Safety Managers & Officers Assoc.
- Certified Rehabilitation Coordinator
- Member of the Safety Institute of Australia (MSIA)

Phillip was initially employed by Comalco Aluminium, in 1989, at their Bell Bay smelter as a Projects Engineer. He was responsible for site wide projects ranging from building extensions to gantry crane upgrades to bulk materials handling system upgrades. Phillip also supervised the mechanical trades maintenance crew during this time.

In 1994 Phillip started with Scripture Union (SU), an international volunteer organisation, in Tasmania. He was responsible for coordinating, facilitating and developing SU activities with emphasis on recruiting, training and servicing approximately 250 adult volunteers annually across 25 discrete activities. In 1997 Phillip transferred to SU in Queensland where he furthered his experience in a leadership and management role.

Since starting with InterSafe, in June 2002, Phil has been;

- Investigating incidents and preparing expert reports for the legal profession – 50+ incidents
- Preparing High Risk Management Plans for mining industry companies.
- Auditing Occupational Health & Safety Management Systems for large multi-national companies.
- Facilitating Critical Behaviour Assessment meetings with management and work groups in the construction industry.
- Training construction and mining management/ supervisors in incident investigation – Essential Factors & ART-T.
- Presenting various training courses – Electrical Awareness / Manual Handling / Energy Concepts / Gravitational Energy / Vehicle Energy.
- Developing Australia's first Accident Investigation Assistant software for minor to serious incident consequences.
