

InterSafe

Consultant Profile

Roger Kahler

Roger is a Director and Principal Consultant of The InterSafe Group Pty Ltd.

Professional Qualifications:

- Bachelor of Mechanical Engineering (B. E. Mech. Hons)
- Registered Professional Engineer, Queensland (R.P.E.Q.)

Professional Memberships:

- The International Society for Fall Protection
- Safety Institute of Australia
- The Ergonomics Society of Australia and New Zealand

Roger's working life has been heavily involved in the mining industry, both nationally and internationally. The first ten years of his career, he worked in both an engineering and management capacity with open cut and underground metalliferous mines.

In 1983, he commenced work on major incident investigation and, as at 2007, he has investigated over 5,000 incidents in detail for the legal profession, multinational and national companies.

Roger provides intensive training of all levels of management, medical staff and the workforce of several major mining, mineral processing and smelting companies in Queensland, Tasmania, New Zealand (North) and South America in the following industry sectors:

- construction industry
- mining industry
- agricultural industry
- timber and saw milling industry
- manufacturing industry
- health industry

Training has covered the following subjects:

- incident investigation
- ergonomics
- slips, trips and falls to the same level
- human perception
- management of damage to the musculoskeletal system
- damaging energy concepts
- predictive techniques for serious personal damage
- design of mobile equipment access systems
- problem solving methodology
- the size and nature of the OHS problem
- challenging current understandings

Roger has been instrumental in designing the InFocus Occupational Health & Safety Management System and is regularly involved in management consultancy with respect to systems implementation issues in relation to Occupational Health & Safety management.
