PROFESSIONAL QUALIFICATIONS

- 1999 Bachelor of Engineering (Mechanical) University of Queensland
- 2013 Advanced Diploma in Occupational Health and Safety
- 2010 Certificate IV in Training & Assessment

PROFESSIONAL MEMBERSHIPS

- Member of the Institution of Engineers Australia (MIEAust)

Adam has previously worked as a Mechanical Design Engineer in the Manufacturing Sector, primarily in Research and Development. Adam has extensive experience in machine design, manufacture, testing and commissioning, project management and troubleshooting. Adam also has extensive experience in engineering analysis and problem solving, which since 2008 at InterSafe has been extended to the sphere of occupational health and safety, incident investigation and risk management.

Adam's work at InterSafe has involved:

- Investigating incidents and preparing over 150 expert reports for the legal profession as well as appearing in court as an expert witness
- Conducting a variety of major and catastrophic incident investigations for national and international companies
- Delivering more than 80 days of training in incident investigation, hazard awareness, ergonomics and risk management to 100s of people across all levels of companies
- Facilitating 'Safety in Design' reviews and risk assessments of major design projects
- Developing high risk management plans for work groups and entire organisations
- Developing traffic management strategies for major public infrastructure construction projects to minimise risk
- Performing audits and risk assessments on individual pieces of equipment, and work areas
- Auditing Occupational Health & Safety Management Systems for multi-national companies to best practice and compliance levels
- Carrying out slip tests on various objects and surfaces

Adam has consulted to and worked with government organisations as well as multinational, national and local organisations in the private sector in the following industries:

- Mining
- Construction
- Oil & Gas
- Manufacturing (across a range of sub-sectors)
- Electricity, Gas & Water
- Transport and Storage
- Professional, Scientific and Technical Services
- Accommodation and Food Services
- Retail and Wholesale Trade
- Arts and Recreation

Who is InterSafe?

InterSafe specialises in incident investigation to Engineer Safer Workplace Solutions. InterSafe has assisted our clients in effectively controlling the future through preparation of more than 10,000 comprehensive incident reports (dealing mostly with fatal/permanently disabling occurrences) throughout 60 years of collective experience.

This experience has led to a unique way of thinking about, investigating and preventing incidents. InterSafe shares these powerful and effective investigation models and techniques through a range of courses and services.
