PROFESSIONAL QUALIFICATIONS

- Bachelor of Mechanical Engineering, Concordia University, Montreal Canada 2008

PROFESSIONAL MEMBERSHIPS

- Member of the Institution of Engineers Australia (MIEAust)

Marek is a Mechanical Engineer with 10 years experience in Canada and Australia. His Mechanical Engineering degree, professional experience and interests have allowed him to undertake and deliver a wide range of projects and challenges.

His current role is that of Engineering Consultant with InterSafe. His experience in the mining and construction sectors ranges from site work to project management. His experience provides him with insight in the industries where InterSafe works hard to identify risks and implement safety solutions that protect people.

Marek's work at InterSafe has involved:

- Delivering training in incident investigation and risk management for national and international companies
- Facilitating workplace interviews and audits for clients to identify and understand tasks, equipment and areas of elevated risk exposure
- Reviewing and developing risk management systems, standards and procedures for effectiveness in preventing fatalities and non-fatal permanent impairment
- Investigating over 100 incidents and preparing expert reports for the legal profession
- Analysing industry and organisational incident data to identify patterns of damage
- Carrying out slips tests on various surfaces in accordance with Australian Standards. Evaluating those surfaces and making recommendations
- Providing consulting and training in English and French

InterSafe has worked with various multinational, national and local organisations in the public and private sector in industries such as Mining, Construction, Manufacturing, Utilities, Accommodation and Food Services, Agriculture, and Health Care, to name a few.

Who is InterSafe?

InterSafe specialises in incident investigation to Engineer Safer Workplace Solutions. InterSafe has assisted our clients in effectively controlling the future through preparation of more than 10,000 comprehensive incident reports (dealing mostly with fatal/permanently disabling occurrences) throughout 60 years of collective experience.

This experience has led to a unique way of thinking about, investigating and preventing incidents. InterSafe shares these powerful and effective investigation models and techniques through a range of courses and services.
