

# Transport Haulage and Load Restraint

### **Facts**

- 80% of transport load restraint systems assessed by InterSafe do NOT satisfy legal requirements.
- Operators and employers are jointly responsible for adequate load restraint.

## **Questions**

- Does your business haul equipment / loads that require lashing / restraint?
- Does your business hire to others equipment / loads that require lashing / restraint?

### If Yes

- Are you confident that operators are appropriately lashing equipment / loads when they are transported?
- Are you confident that you are exercising your duty of care and could defend your case in court?

# **InterSafe Can Help You**

- Assess your current load restraint systems and practices
- Develop specific load restraint guides to assist operators to lash equipment / loads appropriately.
- Provide training for operators to assist them in understanding the complexities of adequate load restraint

InterSafe has nearly 20 years of experience in the transport industry. InterSafe has developed unique software to assist in assessment of load restraint systems as well as investigating several incidents of loads dislodging from vehicles resulting in permanent injury and fatality resulting in a law suit.

### Who is InterSafe?

InterSafe specialises in incident investigation. InterSafe has assisted our clients in effectively controlling the future through preparation of more than 10,000 comprehensive incident reports (dealing mostly with fatal/permanently disabling occurrences) throughout 60 years of collective experience.

This experience has led to a unique way of thinking about, investigating and preventing incidents. InterSafe shares these powerful and effective investigation models and techniques through a range of courses and services.
