PROFESSIONAL QUALIFICATIONS

2013 Bachelor of Mechanical Engineering/Bachelor of Business Supply Chain Management BE (Mech Hons), BBus SupChaMgt

2019 Traffic Crash Investigation 1, Northwestern University Center for Public Safety

PROFESSIONAL MEMBERSHIPS

- Member of the Institution of Engineers Australia (MIEAust)

Nate has over 4 years of mechanical engineering experience working within the industrial chemicals manufacturing industry. He has worked extensively in plant reliability and maintenance through performing inspections, troubleshooting, scoping and design, and executing project management activities. Nate has proven practical, technical, and analytical skills and is proficient in process design, project controls, and project management.

Nate has extensive 'hands-on' experience in risk management, quality management, and safety management stemming from his time as a Turnaround project engineer managing and coordinating teams of engineers, planners, and trades.

Nate's work at InterSafe has involved:

- Investigating incidents and preparing expert reports for the legal profession
- Analysing industry and organisational data for patterns of damage the mining, construction, and drilling industries
- Analysing international codes of practice and data for patterns of fire related damage
- Reviewing and developing risk management systems for effectiveness in preventing fatalities and permanent impairment, and identifying opportunities for improvement
- Carrying out slip tests, whole body vibration measurement, and other site inspections
- Organisational training of front-line workers in incident investigation
- Hazard identification & machine guarding audits

InterSafe has worked for various government organisations as well as multinational, national and local organisations in the private sector in the following industries, to name a few:

- Mining
- Construction
- Manufacturing
- Electricity, Gas & Water
- Telecommunications
- Health Care
- Transport & Storage
- Property Management
- Retail & Wholesale Trade

Who is InterSafe?

InterSafe specialises in incident investigation to Engineer Safer Workplace Solutions. InterSafe has assisted our clients in effectively controlling the future through preparation of more than 10,000 comprehensive incident reports (dealing mostly with fatal/permanently disabling occurrences) throughout 60 years of collective experience.

This experience has led to a unique way of thinking about, investigating and preventing incidents. InterSafe shares these powerful and effective investigation models and techniques through a range of courses and services.
